

"Look for the silver label!"

## 03N Series Nylon Electronic Digital Meters

More accurate, more features. The 03 Series nylon meters are a step up from our basic 01 Series meters. These meters are factory calibrated but offer field calibration too. Low flow and 1 inch models available. Typical accuracy for Factory Calibration is  $\pm 1.5\%$ , and for Field Calibration it is  $\pm 1\%$ . Powered by lithium battery for long life, displays in gallons or litres.

Inner Diameter	Design Type	Fitting	Flow Range	Display	Accuracy	Repeatability y	Reads	Pressure Rating	Model	Warranty
1 In.	Electronic Digital	NPT	0.3 to 3 GPM 1 to 10 LPM	LCD 6 Digits	$\pm 1.5\%$ of reading	$\pm 1\%$	Gallons and Litres	150 PSI 10.3 bar	03N30GM	1 Year
1 In.	Electronic Digital	NPT	3 to 50 GPM 10 to 190 LPM	LCD 6 Digits	$\pm 1.5\%$ of reading	$\pm 0.2\%$	Gallons and Litres	150 PSI 10.3 bar	03N31GM	1 Year
