

A-C Series 1500 – Vertical In-Line

The Series A-C 1500 is an efficient, heavy-duty, close-coupled in-line mounted pump available in several sizes from 1-1/2" through 8". They are available in bronze fitted and all cast iron construction. The pump flows to 2500 GPM, heads to 380 feet with horse power ranging from 0.25 Hp to 50 HP at 1750 RPM and 5 to 60 HP at 3500 RPM. The Series A-C 1500 has a space saving design and can be mounted vertically & horizontally and is available in 175#, 250# and 300# working pressure.

Applications:

Light industrial, general water transportation, irrigation and municipal water

Features & Benefits:

- Standard internal flushed BUNA/Carbon seal – Provides five times the flushing flow of pumps designed with externally flushed seals.
- Precisely machined rigid cast iron motor bracket – Ensures positive concentric alignment between motor and pump components. This helps promote maintenance free operation and contributes to pump longevity.
