

DR 5-30 Digital Fuel Meter

The rugged design protects the digital electronics that come programmed with seven different units of measure. Field calibration is easy from the front panel should you need flexibility. This versatile meter includes fittings that rotate and the meter cover can be turned too. Choose from three different sizes 3/4, 1 and 1 1/2 inch with either NPT or BSPP threads.

Model	Design Type	Fitting	Flow Range	Accuracy	Pressure Rating	Reads	Display
DR 5-30-6N	Nutating Disc	NPT	5 to 30 GPM 19 to 114 LPM	±1.00% Field Calibration ±2.00% Factory Calibration	50 PSI	Litres or Gallons	Digital Batch: 4; Total: 6 Digits
DR 5-30-8N	Nutating Disc	NPT	5 to 30 GPM 19 to 114 LPM	±1.00% Field Calibration ±2.00% Factory Calibration	50 PSI	Litres or Gallons	Digital Batch: 4; Total: 6 Digits
DR 5-30-12N	Nutating Disc	NPT	5 to 30 GPM 19 to 114 LPM	±1.00% Field Calibration ±2.00% Factory Calibration	50 PSI	Litres or Gallons	Digital Batch: 4; Total: 6 Digits
DR 5-30-6B	Nutating Disc	BSPP	5 to 30 GPM 19 to 114 LPM	±1.00% Field Calibration ±2.00% Factory Calibration	50 PSI	Litres or Gallons	Digital Batch: 4; Total: 6 Digits
DR 5-30-8B	Nutating Disc	BSPP	5 to 30 GPM 19 to 114 LPM	±1.00% Field Calibration ±2.00% Factory Calibration	50 PSI	Litres or Gallons	Digital Batch: 4; Total: 6 Digits
DR 5-30-12B	Nutating Disc	BSPP	5 to 30 GPM 19 to 114 LPM	±1.00% Field Calibration ±2.00% Factory Calibration	50 PSI	Litres or Gallons	Digital Batch: 4; Total: 6 Digits
