

## LP-50

Designed to fit tanks or 55 gallon barrels. The unique linkage and shaft design ensures a smooth and easy stroke, and eliminates side load, shaft binding, or seal leakage seen in other lever pumps.

## SPECIFICATIONS

Model	LP-50
Design Type	Lever
Flowrate	Up to one pint per stroke
Nozzle	Molded Acetal Spout
Tank Fitting	2 Inch NPT
Suction Pipe	Expandable to fit drums to 36 inches deep
To Use With	Antifreeze, Diesel Fuel, Water, Petroleum Based Products, Mild Detergents, Lubricants, Diesel Exhaust Fluid (DEF), urea solution, AUS 32, and most agricultural chemicals
Unique Features	Unique design for smooth and easy strokes. Design eliminates seal leakage.
Warranty	90 Days
