

Utility Pumps

Not every project needs a large pump, yet the application may call for a quality of pump a few grades higher than what's found in retail stores. In order to satisfy your customers, turn to Tsurumi's line of contractor ready utility pumps.

Utility Pumps

Features

L4000 Series DC Pump:

12 volt DC pump.

1.5" and 2" discharge ports.

Liquid cooled motor.

Double ball bearing.

12 pole motor.

Built in check valve.

Utility Pumps

Features

F-13 Utility Pump:

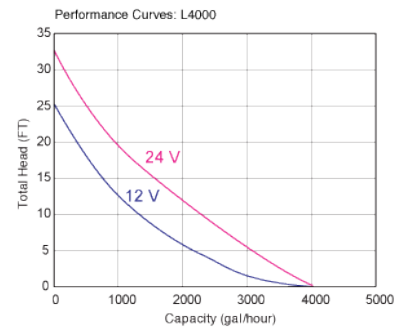

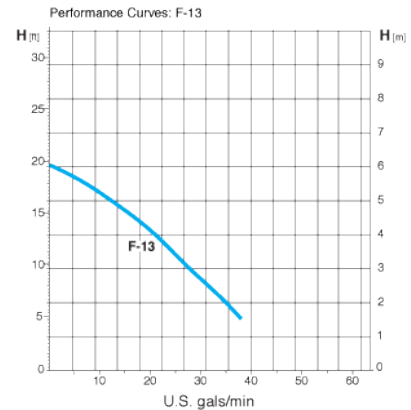

Air-filled motor.

Built in float switch for automatic or manual operation.

1.25" discharge with garden hose adapter.

With an air filled motor, this lightweight pump is suitable for all your general dewatering applications whether it be draining the children's pool, or removing access water from the basement floor. There's a built in float switch allowing you to operate the pump automatically or manually depending on the situation.

Performance Range

Model	Discharge Size (in.)	Motor Output (HP)	Voltage (V)	Cable Length (ft.)	Diameter (in.)	Height (in.)	Weight (lbs.)
L4000	1 1/2 or 2 in.		12V	6 ft.			5.4 lbs.
F-13	1 1/4 in.	1/4 hp (nominal)	115V	10 ft.			6.6 lbs.
