

STAINLESS STEEL K-SERIES

**Submersible and End-Suction
Centrifugal Pumps**

More Solutions for Your Pumping Needs

Ideal for High Flow Liquid Transfer, Booster Pump, Draining or Low Pressure Spraying

Quality and Innovation Our Keys to Success

For more than 30 years CAT PUMPS has been the leading pump supplier for the car wash industry and the pump of choice in thousands of industrial cleaning and process applications. Because of CAT PUMPS' commitment to building only the highest quality pumps, we have earned the reputation of being the longest lasting, most trouble-free pumps available. We have also earned the reputation for offering new and innovative solutions for pumping applications.

The K-Series pumps compliment our triplex high pressure positive displacement pump line. These pumps offer solutions to many high flow, low pressure industrial pumping needs whether it's the pumping of **fresh water, semi-dirty water or liquids with some suspended solids.**

The K-series **submersible and end-suction centrifugal pumps** are built of stainless steel for long lasting performance and exceptional value. These high quality components offer a stronger, lighter weight and more durable pump than the conventional cast iron pumps at a very competitive price.

A special technology has been developed to pressure bulge form the stainless steel components for these pumps. The result of this new process is superior quality, greater strength, increased efficiencies, lighter weight, continuous-duty performance and exceptional value. These pumps will definitely outperform anything in its class.

There are over 100 models to choose from including options for manual or automatic; single or three phase; TEFC or open-drip. The centrifugal pumps are available with optional chemical resistant or high temperature seals and flanged or standard NPT fittings. Both pump kits or motorized units are available.

Thousands of Applications

Stainless Steel Submersible Pumps

- Drainage of excavated areas
- Car wash drainage pits
- Water from basements
- Pool draining
- Septic tank draining
- Transfer of waste water or effluent solutions to sewage and treatment systems
- Emptying vessels and above or underground storage tanks
- Marine bilge pumping
- Ink transfer systems
- Farm irrigation water
- Waste water treatment systems
- Circulating liquids throughout plants
- Pharmaceutical products
- Ag chemicals

Stainless Steel End-suction Centrifugal Pumps

- Booster Pumps
- Fire protection systems
- Washing systems
- Spraying systems
- Beverage processing
- High temp liquids and mild chemical transfer

See our complete line of high pressure, positive displacement, reciprocating pumps at www.catpumps.com.

1K Series - Submersible Sump Pumps

Stainless steel submersible sump pumps offer solutions to pumping semi-dirty water or fresh water with suspended solids up to 3/8".

| | |
|-------------------------------------|----------------------------|
| Flow Range..... | up to 88 GPM |
| Pressure Range [up to 24 PSI] | .55 Ft. Head |
| RPM..... | 3450 RPM |
| Discharge Fitting..... | 1-1/4, 1-1/2" NPT |
| Horsepower..... | 1/3, 1/2, 3/4, 1, 1-1/2 HP |
| Operation..... | Manual or Auto |
| Maximum Temperature Continuous..... | 122°F |
| Intermittent..... | 140°F |
| Maximum Solids Diameter | 3/8" |

2K Series - Submersible Pumps

Stainless steel submersible pumps offer reliable pumping of freshwater or industrial waste water with suspended solids up to 2".

| | |
|---------------------------------------|---------------------|
| Flow Range | up to 180 GPM |
| Pressure Range [up to 19.5 PSI] | 46 Ft. Head |
| RPM | 3450 RPM |
| Discharge Fitting | 2" NPT |
| Horsepower | 1/2, 1, 1-1/2, 2 HP |
| Operation | Manual or Auto |
| Maximum Temperature Continuous | 104°F |
| Intermittent | 140°F |
| Maximum Solids Diameter | 2" |

3K Series - End-Suction Centrifugal Pumps, Single and Two Stage

Stainless steel end-suction centrifugal pumps offer dependable performance and flexibility in moving high volume liquids at low pressure. Single stage sold as either Pump Kit or Motorized Unit. Two stage sold as Motorized Unit only.

| | |
|--|----------------------------------|
| Flow Range | up to 90 GPM |
| Pressure Range [up to 106 PSI] | 245 Ft. Head |
| Minimum Inlet Pressure to Prime | Flooded |
| RPM | 1725 or 3450 RPM |
| Inlet Fitting | 1-1/4, 1-1/2" NPT |
| Discharge Fitting | 1" NPT |
| Shaft Seal | Mech Type 21 |
| Horsepower Single Stage | 1/3, 1/2, 3/4, 1, 1-1/2, 2, 3 HP |
| Two Stage | 2, 3, 5 HP |
| Maximum Temperature Single Stage | 160°F |
| Two Stage | 140°F |

(Single Stage Shown)

4K Series - Centrifugal Pumps

Sold as Pump Kit or Motorized Unit.

| | |
|---------------------------------------|------------------------------|
| Flow Range | up to 380 GPM |
| Pressure Range [up to 124 PSI] | 285 Ft. Head |
| Minimum Inlet Pressure to Prime | Flooded |
| RPM | 1725 or 3450 RPM |
| Inlet Fitting Flange | ANSI 150 |
| Discharge Fitting Flange | ANSI 150 |
| Shaft Seal | Mech Type 21 |
| Horsepower | 1, 2, 3, 5, 7-1/2, 10, 15 HP |
| Maximum Temperature | 160°F |

5K Series - Self Priming Centrifugal Pumps

Sold as Pump Kit or Motorized Unit.

| | |
|-------------------------------------|----------------|
| Flow Range | up to 18.5 GPM |
| Pressure Range [up to 82 PSI] | 190 Ft. Head |
| RPM | 3450 RPM |
| Inlet Fitting | 1-1/4" NPT |
| Discharge Fitting | 1" NPT |
| Shaft Seal | Mech Type 21 |
| Horsepower | 1, 2 HP |
| Maximum Temperature | 113°F |

Performance Ranges

Performances at 1.0 SG. Additional horsepower required with higher SSU and SG.

1K Series Sump Pumps

4K Series End Suction Pumps - 3450 RPM

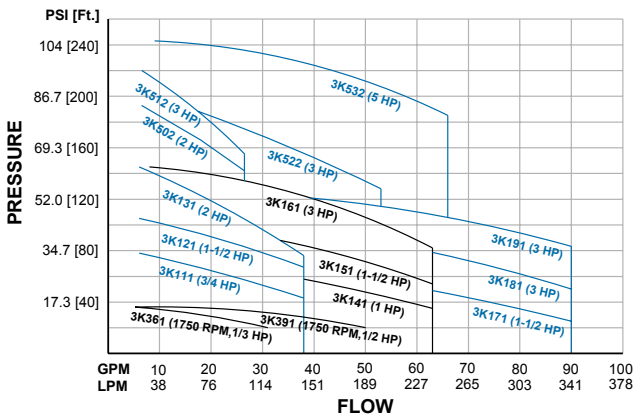

2K Series Submersible Pumps

4K Series End Suction Pumps - 1725 RPM

3K Series End Suction Pumps

5K Series Self Priming Pumps
