

Diesel EPT-Trailer or Skid mounted Pump Series

Trailer or Skid mounted trash pumps for tough jobs. Available in 4 inch or 6 inch sizes, Tsurumi's heavy duty series of trash pumps can be found on the smallest and largest of jobsites. From dewatering to sewage, clean water to 3-inch solids, our trash pumps can do it all.

Diesel EPT-Trailer or Skid mounted Pump Series Features

- Powered by heavy duty Deutz diesel engines.
- 4 inch and 6 inch suction and discharge designs.
- Non-clog ductile iron impeller passes 2 inch solids with the 4 inch pump and 3 inch solids with the 6 inch pump.
- Rubber lined front and rear wear plates resist oil and abrasives.
- Grease lubricated tungsten carbide mechanical seals (oil lubricated seals also available).
- Heavy-duty DOT road trailer with 15 inch 6-ply tires and 2 inch ball hitch (optional pintle hitch available).
- Available in skid mounted design.

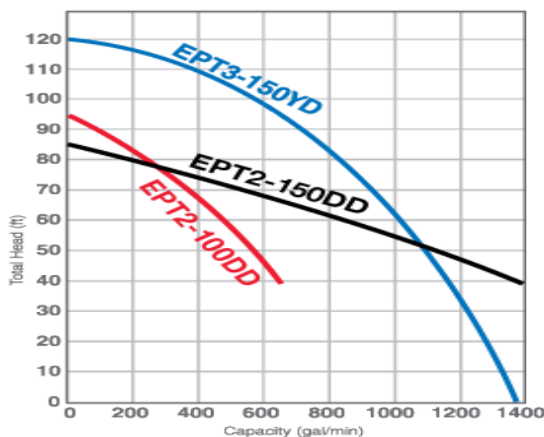

Diesel EPT-Trailer or Skid mounted Pump Series Features

EPT3-150YD Heavy Duty Trash Pump Features:

- Powered by a heavy-duty water cooled Yanmar diesel engine - featuring low emission, noise, vibration, and lower fuel consumption.
- Capable of passing 3' solids and is designed for rugged applications in rental, construction, civil engineering, industrial, wastewater and agricultural applications.
- Constructed with a class 30 cast iron casing, two vane ductile iron impeller and replaceable ductile iron volute.
- Heavy-duty DOT road trailer with 15" 6-ply tires and 2" ball hitch (optional pintle hitch available).

Performance Range

Model	Suction Size (in.)	Discharge Size (in.)	Engine Model	Shipping Weight (lbs.)	Shipping Dimensions (in.)
