

# Gearbox Pumps

## Industrial Duty Gearbox-Driven Pumps

Cat Pumps' gearbox pumps are long-lasting direct-drive pumps that can be mounted on standard gas or diesel engines, running up to 24 HP. The gearbox drive has a 2 to 1 ratio allowing the pump to run at half the speed of the engine. This configuration provides a compact assembly without running the pump at high engine RPM's. The gearbox is completely sealed making them ideal to handle a variety of environmental conditions including rain, dust, humidity and anything else mother nature throws at it. Cat Pumps' gearbox pumps are commonly found on commercial-duty pressure washers and designed for continuous duty use.

### Popular Gearbox Models:

| Model        | GPM  | PSI  |                            |
|--------------|------|------|----------------------------|
| 5CP3120CSSG1 | 4.5  | 3500 | <a href="#">Learn More</a> |
| 70G1         | 4.5  | 5000 | <a href="#">Learn More</a> |
| 5CP5140CSSG1 | 5.5  | 3500 | <a href="#">Learn More</a> |
| 5CP6120CSSG1 | 6.7  | 1600 | <a href="#">Learn More</a> |
| 5CP6190G1    | 9.7  | 1200 | <a href="#">Learn More</a> |
| 45G1         | 4.5  | 3500 | <a href="#">Learn More</a> |
| 59G1         | 5.5  | 3500 | <a href="#">Learn More</a> |
| 60G1         | 4.5  | 4000 | <a href="#">Learn More</a> |
