

High Pressure Mufflers

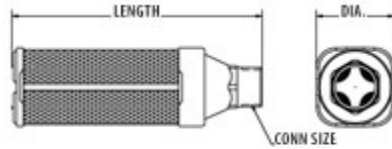

Single Chamber-Male

1/8" - 2"

Multi-Chamber-Male

3" - 6"

- Silencing high pressure exhaust noise**
- Design expands on standard Relief Valve Muffler features and helps to control high pressure exhaust noise
 - For special situations, features can be combined with other mufflers, including Air Dryer Mufflers and Thru-Flow Mufflers
 - When ordering, specify the pipe size connection and the operating air pressure
 - These custom, Made-to-Order mufflers are non-returnable
 - Recommended for general purpose air exhaust applications for pressures exceeding 150 psi (10.3 Bar)
