

PPD DEMAND CONDENSATE DRAIN

The PPD11 Condensate Drain is the ultimate demand operated drain. The unit is fully automatic with no electricity required. Its low profile gives you the advantage of installing it in areas where the vessel to be drained is only a few inches from the ground. The PPD11 Condensate Drain design also eliminates the need for the installation of a vent line for most applications. A unique air valve design uses a magnetic force to ensure both a positive opening and closing that will prevent any air loss.

Features & Benefits

- See through vessel
- Fully pneumatic
- No wasted air
- Low profile
- Made in USA
- Ball valve steam support system
- Ideal for oil/water separators
- Non-clogging ball valve
- No strainers to clean
- Operates on demand
