

Relief Valve Mufflers

Single Chamber-Male

1/8" - 2"

Single Chamber-Female

1/8" - 2"

Multi-Chamber-Male

3" - 6"

Pressure equalization optimizes performance

- Includes all the outstanding features of the industry-standard Atomuffler® Air Exhaust Muffler plus an added relief valve
- Ideal for applications where uninterrupted continuous outflow is needed
- Superior design and construction provides a low-cost, effective method of eliminating annoying, distracting noise emitted from air-operated devices
- Unique relief valve equalizes pressure by detecting any outflow deviation, responding to the pressure differential and opening up to compensate for outflow demands
- Recommended for pressures up to 175 psi (12 Bar)
